Independent Study

Changing lifestyles bring about new attitudes toward education. Today people are viewing university campuses as sites from which learning emanates, rather than as cloistered repositories of knowledge. Education as purposeful involvement is becoming accepted as a lifelong part-time activity, not something that terminates with a high school or college diploma.

The University of Southern Mississippi's Division of Continuing Education and Public Service is proud of its record of responsive leadership in taking educational opportunities to the people of the state and nation through its flexible program of extension courses, conferences, workshops, special interest courses, and Independent Study.

Independent Study affords a unique opportunity to study at one's own pace under individualized faculty guidance. Whether the course be taken for academic credit or not, you can be assured of the University's traditional standards of instruction and materials. Discover the excitement of new styles of learning by enrolling in our Independent Study courses.

Division of Continuing Education and Public Service

The University of Southern Mississippi offers equal educational and employment opportunities to all persons without discrimination and without regard to sex, race, religion, color, or national origin. These provisions also apply to handicapped individuals pursuant to current federal and state regulations subject to reasonable standards of admission and employment.

REGISTRATION

You may register for Independent Study courses at any time during the year. Application forms are enclosed and book order forms are provided with this catalog. All information requested on the enrollment form should be completed. The application forms and fee should be sent to the Department of Independent Study, Southern Station, Box 5056, Hattiesburg, MS 39401. The Book Order Form should be sent directly to the USM Bookstore, Southern Station, Box 5062.

You may also register in person at the Independent Study Office, Room 315, McLemore Hall. Office hours are 8:00 a.m. to 5:00 p.m., Monday through Friday.

COURSE LOAD

It is recommended that no more than two Independent Study courses be in progress at any one time.

HIGH SCHOOL COURSES

The University of Southern Mississippi's Department of Independent Study offers sixty-five high school courses, found in a special section of this catalog. Anyone may enroll in a high school Independent Study course who has completed the eighth grade or is at least 18 years old. Individuals may enroll at any time during the year. For complete information about the high school program, please see page 6 of this catalog.

FEES

University Course Fees

$25.00 for a one-semester hour course
$50.00 for a two-semester hour course
$75.00 for a three-semester hour course
$2.00 first class mailing fee

Any additional supplements and tapes are ordered from the Department of Independent Study; payment for these must accompany the order. Prices are listed in the catalog with the course information.

High School Fees

$35.00 per one-half unit and $2.00 first class mailing fees are payable in advance.

REFUNDS

A refund is allowed if no more than one month has elapsed since registration and if no lessons have been submitted. The amount of this refund is 80 percent of the tuition fee submitted. No refunds are allowed on course transfers.

TEXTBOOKS

Necessary textbooks may be obtained wherever it is convenient for you. Books may be sent from the USM Bookstore. The Book Order Form should be sent directly to the USM Bookstore, Southern Station, Box 5062, Hattiesburg, MS 39401.

A cost range is listed with each course to give an estimate of text fees. If you have access to one or more of the required texts, list on the Book Order Form only those you wish sent.

Text listings in this catalog may be changed without notice. Books may go out of print, making the course for which they are used unavailable or necessitating the rewriting of the course and the use of another text.

Certain used books will be available at a reduction of the regular price. It is suggested that the student indicate if a used copy of the book is desired. If possible, it will be supplied. It should be noted that new books are not always available at the USM Bookstore; therefore, a used book will be sent to eliminate the student's waiting. New books, when desired, may be ordered directly from the publishers (see course description).

NOTE: You should use the exact textbook and edition for which your course materials are written.

Lesson Preparation and Mailing

Students will not be permitted to rush through Independent Study courses. Lessons should be carefully prepared, and the student should not apply for the final examination until he is adequately prepared to take it.

As lessons are completed, the student should mail or bring them to the Independent Study Office for evaluation by the instructor. Students are encouraged to make duplicate copies of lesson assignments to protect themselves in the event of loss. Do not submit partially complete lesson assignments. (It is suggested that you mail three lessons at a time in one

of the self- addressed envelopes received in your packet.)

The Department of Independent Study is not responsible for lessons lost in the mail due to insufficient postage or otherwise.

GRADING OF ASSIGNMENTS

1. Graded lessons will not be returned to the student unless his work is of a quality which, in the opinion of the instructor, requires additional work and review. A progress report will be mailed to each student after completion of lesson six and lesson fourteen on the college program, and after lessons 1-4. Test 1, and 5-8, Test 2 on the high school program.

2. A grade report bearing the student's final grade will be mailed at the earliest possible date after completion of all course requirements.

3. The student experiencing difficulty in his work should contact the Department of Independent Study and explain the nature of his problem. Administrative problems can be handled by the Department of Independent Study; problems of academic nature will be referred to the grading professor for response.

TIME LIMITATIONS

Resident and/or non-resident Independent Study courses that are to be used to complete graduation requirements must be completed, including the examination, and in the hands of the Independent Study Office no later than three weeks before the date of commencement exercises.

The maximum time for the completion of an Independent Study course is one year from the date of acceptance of the application. The minimum time for completion of a course is **one month** from the date of registration provided assignments are sent in two or three at a time at regular intervals proportionately spaced over the minimum time.

EXTENSION

A three-month extension beyond the one-year limitation will be granted upon payment of $5.00 before the expiration date: Students are allowed one three-month extension for each course. With the extension fee, the student **must** include the social security number, the name and number of his course, and his name, address, and zip code.

EXAMINATIONS

If a student receives a failing grade on his course, he may, *with the permission of the instructor*, be permitted to retake the test required for the course. The charge for repeating these tests is $10.00.

THE HONOR SYSTEM

Examinations should be an important part of the learning process. They are also the chief means for evaluating and recording your accomplishments in the subject. It is, therefore, important that the examining process be conducted so that the achievements on the examination represent your own efforts.

A high sense of personal honor and integrity is imperative in Independent Study lessons and examinations. The system of Independent Study is a privilege extended to us by the University. Hundreds are able to study at home because of such a program. Academic misconduct in the form of giving or receiving outside aid in examinations or on lessons is an abuse of this privilege and endangers the integrity both of the person and of the system.

When evidence of cheating is brought to the attention of this office, that evidence is recorded. The individual is then given an opportunity to be heard. If findings establish proof of academic misconduct, the individual may be denied refund of the Independent Study fee, credit for the course, and further registration in any Independent Study course offered by the University. A report of the violation will be made to the school concerned.

MILITARY PROGRAMS
DEFENSE ACTIVITY for NON-TRADITIONAL EDUCATION SUPPORT

The successor to the United States Armed Forces Institute (USAFI), the Defense Activity for Non-Traditional Education Support (DANTES), is responsible for providing information to military personnel concerning programs that are available to them. The Department of Independent Study of the University of Southern Mississippi has cooperated with DANTES in providing information concerning the offerings and regulations of the department. Military personnel interested in Independent Study should confer with their education officer for guidance in the selection of appropriate courses of study.

This department will be pleased to give its full cooperation to DANTES and anticipates the same fine working relationship that we experienced with USAFI.

VETERANS

All University level courses listed for credit in this **Bulletin** are approved for eligible persons or veterans under the provisions of the G.I. Bill. Veterans or eligible persons must include the completed "Application for Program of Education or Training" (VA Form 22-1990) as part of their application for enrollment in the course.

PHYSICAL HANDICAPPED

The Mississippi Education Agency, through its Mississippi Rehabilitation Commission, offers payment of tuition and other fees and services to civilian students (normally nonveterans) who have certain physical handicaps, provided the vocational objective selected by the student has been approved by a representative of the division.

Application for vocational rehabilitation should be made to the District Rehabilitation Commission Office nearest the student's home.

COUNSELING SERVICE

The Division of Continuing Education and Public Service offers individual counseling for the student who wishes to have help in planning an educational program which includes Independent Study. The service is especially valuable to students not presently following a degree program at a college or university. Prospective students desiring counseling should contact the Department of Independent Study.

High School

REGISTRATION

1. Contact the principal, superintendent, or guidance counselor of your high school and have him advise which course will give acceptable credit.

2. Complete the application form and have a school official sign the application and appoint a supervisor. Be sure to indicate the course(s) requested in one-half units to avoid the possibility of the incorrect semester of work being mailed by the Department of Independent Study.

3. Send the completed application form and tuition payment to the Department of Independent Study, Southern Station, Box 5056, Hattiesburg, Mississippi 39401. Make all checks or money orders payable to the University of Southern Mississippi.

4. *Course materials will be mailed to your supervisor who will distribute them to you and issue your final instructions. It is the responsibility of the student to contact his supervisor concerning the receipt and distribution of the course materials.* If the course materials have not been received by the supervisor within a ten-day period following the request, the Department of Independent Study should be notified immediately.

5. Order textbooks from the University Bookstore using the enclosed order form and request C.O.D. shipment. Do not send textbook requests to the Department of Independent Study.

6. Retain this catalog for future reference. Contact the Department of Independent Study should unexpected problems arise which cannot be resolved through the assistance of your supervisor.

COST

All high school Independent Study courses are divided into one-half units. The registration fee for each one-half unit is $35.00. All fees must be paid in advance. Fees may be changed at anytime.

Students are required to pay postage on the lessons and tests sent in for grading, while the University pays the postage on the graded tests which are returned to the student. It is the responsibility of the student to provide sufficient postage on lessons sent to the department for grading.

It is preferable that tuition payment be made by check or money order. All checks and money orders should be made payable to the University of Southern Mississippi.

CREDIT AND COURSE LOAD

The Department of Independent Study does not issue a diploma but

issues credit through an accredited high school. Any student taking an Independent Study course for the purpose of completing high school credits, or wishing his credit added to his high school record, must have the written approval of the superintendent or principal of his school. The superintendent or principal agrees to accept the Independent Study credit when he signs the student's Independent Study application. Upon completion of a course, a grade report is sent to the principal of the school, who in turn adds the credit to the student's high school record.Not more than *two units or four half units* of Independent Study credit may be accepted for meeting graduation requirements in the *State of Mississippi*.

Students taking courses to meet graduation requirements outside the State of Mississippi will follow regulations of the state in which they wish to receive credit (See Section A).

If a student is preparing for a GED test, he will be allowed to complete as many courses for non-credit as he deems necessary to pass the GED test.

A student cannot enroll in more than two courses of one-half unit each at any one time.

An additional two units of Independent Study work, if approved by the principal where the student is enrolled, may be counted toward a high school diploma, provided the applicant has reached the age of eighteen years on or before January 1 of the year in which the request is received and provided the applicant meets all other requirements for Independent Study credit.

SUPERVISION OF STUDY

Every student taking an Independent Study course for credit must have a supervisor appointed by his principal. The Department of Independent Study *prefers* that the supervisor be a *teacher* in the same subject field as the Independent Study course requested. *In no instance can the supervisor be a guardian or parent.*

All lesson materials will be sent to the student's supervisor who will distribute them to the student. The specific duties of the supervisor are enumerated in the Supervisor's Manual which accompanies each set of course materials. *Generally, the supervisor's duties consist of administering tests, mailing completed lesson assignments, and providing extra help as required.*

NOTE: It is the responsibility of the student to provide the supervisor with sufficient postage. The supervisor can be of tremendous assistance in helping the student resolve temporary problems and encouraging him to work conscientiously.

It is the responsibility of the supervisor to administer a student's tests *in a test situation* and to insure the completion of the tests *without the benefit of outside assistance*.

CHANGE OF RESIDENCE

During the period of Independent Study course enrollment, a student who finds it necessary to transfer from one school to another must:

1. Inform the original supervisor that all tests must be destroyed.
2. Contact the new principal. It is the responsibility of the new principal to:
   a. Approve the Independent Study course enrollment through his school.
   b. Assign a new supervisor.
   c. Inform the Department of Independent Study in writing of enrollment approval and new supervisor assignment. The name and complete address of the supervisor must be included.
   d. Request that a new test booklet be sent to the newly assigned supervisor.
3. Include a handling fee of $2.00 with the Principal's request to cover the cost of forwarding additional test materials.

RELEASE OF GRADES

Grades cannot be given by phone to students or parents.

Grades can be given by phone only to the student's supervisor, counselor, or principal after proper identification. The identification method will be by the supervisor's social security number which is listed on the application.

Grades will be sent by mail to the student's high school and to the student's home.

A progress report may be given by phone to the student upon proper identification such as social security number.

Students may see their grades which are recorded in the Independent Study office.

TRANSFER OF COURSE – HIGH SCHOOL

If a student wishes to transfer his enrollment to a course different from the one for which he registered, he may do so provided:

a. The request is made within a thirty-day period after the original registration date.

b. A new application form signed by his principal and naming a supervisory teacher for the new course is submitted.
c. A $5.00 "transfer fee" and a $1.00 fee for each lesson assignment submitted are paid.
d. The original course materials and supervisor's manual are returned to the Department of Independent Study.
e. The transfer does not alter the original time limit for completion of the course.
f. The transfer is not made from one person to another.
g. All transfer fees are in the hands of the Department of Independent Study before the new course is issued.

UNIVERSITY COURSES FOR HIGH SCHOOL SENIORS

Enrollment in basic university courses is open to eligible high school students who wish to enrich and accelerate their education. Students may enroll any time during the year, beginning as early as summer vacation between the junior and senior years.

Eligibility

To be eligible for this program, high school students must have completed their junior year; they must rank in the upper one-third of their class; they must be capable of performing university level work; and the Independent Study course work should not interfere with their regular high school program.

ENROLLMENT REGULATIONS
UNIVERSITY

1. Students may register for Independent Study courses at any time during the year. Application blanks are enclosed and Book Order Forms will be found at the back of the **Bulletin**.

   If a student is in attendance at any institution of higher learning, he must obtain written permission of the dean of his college or school in order to register for Independent Study.

   If Independent Study is approved while in residence at the University of Southern Mississippi, it becomes a part of the student's course load and must be completed within that term.

2. Students under suspension from any college or university will not be permitted to take Independent Study courses during the period of suspension.

3. A student from any state or country may enroll for Independent Study courses at the University of Southern Mississippi. It is suggested, however, that each student check with the dean of his or her own college for approval and advice before enrolling for the Independent Study work.

4. Two persons from the same family are requested not to register for the same course because persons taking Independent Study courses are not to work together.

ELIGIBILITY FOR ENROLLMENT

Formal admission to the University of Southern Mississippi is not required for enrollment in Independent Study courses, and enrollment in an Independent Study course does not constitute admission to the University. Degree seeking students enrolled in on-campus courses should clear all Independent Study courses with the dean or adviser of the college in which they wish to graduate and submit a written permission slip with their Independent Study application form. For those students not enrolled in on-campus courses, this rule will not apply.

CREDIT

1. If academic credit is desired, the student must meet the course prerequisites.

2. Up to one-fourth of the requirements for the bachelor's degree at the University of Southern Mississippi may be met through Independent Study and/or Extension. All of the thirty-two hours may be Extension or all of the thirty-two hours may be Independent Study or in any combination of the two as long as the total is not more than thirty-two semester hours. A maximum of nine semester hours may be taken through Independent Study in any one department.

3. Credit will not be allowed when there is evidence that unfair assistance has been obtained either on the lessons or the final examination. Students denied credit for this reason may not repeat the course through Independent Study.

PASS-FAIL OPTION

Independent Study courses may be taken on a pass-fail basis. If a student wishes to enroll in an Independent Study course on a pass-fail basis, he must state this fact when he applies for the Independent Study course. The student must also abide by the pass-fail regulations stated in the University **Bulletin**.

USE OF LIBRARY

A library card may be secured in the Department of Independent Study located in Room 315 McLemore Hall for use of library facilities for the duration of the course.

TRANSFER OF COURSE

If a student wishes to transfer his enrollment to a course different from the one for which he registered, he may do so provided:

a. The request is made within a thirty-day period after the original registration date.
b. A $5.00 "transfer fee" and a $1.00 fee for each lesson assignment submitted are paid.
c. Written permission for the new course is obtained from the dean of his school or college if he is currently enrolled at an institution of higher learning.
d. The original course materials are returned to the Department of Independent Study.
e. The transfer does not alter the original time for completion of the course.

f. The transfer is not made from one person to another.
g. All transfer fees are in the hands of the Department of Independent Study before the new course is issued.

RELEASE OF GRADES

Grades will be sent directly to the registrar's office to be recorded on the student's transcript, and a copy will be mailed directly to the student.

Grades will not be given by phone other than to proper university or college officials with a direct educational need for those grades. The student's adviser, department chairman, and the Registrar may be persons with a possible need for those grades.

A progress report may be given by phone to the student upon proper identification such as social security number.

Students may see their grades which are recorded in the Independent Study Office.

TRANSCRIPT OF RECORD

An official grade transcript may be requested in writing from the Registrar's Office, Southern Station Box 5006, Hattiesburg, MS 39401. The fee of $1.00 for each transcript should be sent with the request; the transcript will be sent to the person or institution indicated in the request.

TEACHER CERTIFICATION

Independent Study courses offered in this **Bulletin** can be used *in fulfilling the requirements for Mississippi Teacher Certification* or *Certification Renewal*. These courses will also fulfill Teacher Certification and Certification Renewal requirements in many other states. Teachers residing outside of Mississippi should contact their state departments for approval before enrolling for this purpose.

Courses being taken for teacher certification should be completed and the examination must be in the Independent Study Office by August 15 in order to have credit reported by September 1 to the Mississippi State Department of Education for certification for a particular year.

EXAMINATION APPOINTMENTS

If you intend to take your examination at the Department of Independent Study Office on the USM campus, Hattiesburg, you may come into the office any day Monday through Friday. Office hours are 8:00 a.m. to 5:00 p.m. You are allowed three hours for the taking of the

examination. If you plan to take it during the morning hours, you should come in prior to 9:00 a.m. If you plan to take it during the afternoon, you should come in no later than 2:00 p.m. in order to have ample time before closing.

If you plan to take the examination at one of the testing centers, please see the listing of examination centers as follows. Scheduled examination hours should be arranged with the Test Center ten days prior to the date of the examination and request for examinations should be received in the Independent Study Department seven to ten days before that date in order to assure mailing of the information to the Test Center.

SPECIAL PROGRAMS

Citizenship Training Course. The Department of Independent Study cooperates with the United States Department of Justice, Immigration, and Naturalization Service in offering a course for candidates for naturalization. This course has been prepared by the Department of Justice and is designed for persons who have applied for citizenship and wish to prepare for the examination. A registration fee of $10.00 includes cost of all books and materials. (Non-Credit)

Food Service Supervisors Course. This course is offered for the purpose of training selected persons to assume supervisory positions in food service departments of hospitals, extended care facilities, and in other areas of food service operation. It will make available trained non-professional supervisors to assist the dietitians in administrative procedures, in modification of diets according to an established policy, and in patient contact. The course is designed to train supervisors to be more effective and efficient in the use of their skills and abilities and thus to contribute to better care of patients and residents.

General Education Development (GED) Preparatory Course. The program is designed to assist adults wishing to pass the high school equivalency examination (GED). All five areas on which students will be examined are covered in this program. Students may take each examination separately upon completion of that phase of the course work. The cost is $35.00 per subject area or $150.00 for all five areas. (Non-Credit)

COURSES BY NEWSPAPER

Each year the Department of Independent Study participates in a nation-wide program entitled "Courses by Newspaper." CbN enables the department to offer select courses, in an innovative and interesting fashion, in conjunction with participating newspapers. The newspaper provides the medium through which "lectures" are presented and which are supplemented by specially written texts and student manuals, as well as through student contact with the course professor on at least two occasions.

Newspaper courses are normally offered for three semester hours of credit at the rate of $25 per semester hour. Credits earned in this fashion may be applied in the same manner as other courses taken through independent study.

Newspapers which carry this series will be advertising the courses early in the fall and winter semesters. All persons interested in this creative

approach to independent study are urged to contact the Independent Study Department for information concerning participating newspapers and course details. Two highly provocative courses which are proposed for 1978-79 are: "Taxation: Myths and Realities" and "Death in America."

THE GREAT DECISIONS PROGRAM

The Department of Independent Study annually sponsors the Great Decisions program in Mississippi. The department counselor serves as the state wide coordinator for the program. Great Decisions is a nation-wide citizen education effort conducted by the Foreign Policy Association, a private, non-profit corporation. Its intent is to offer citizens from all walks of life the opportunity to learn about the great issues facing this country each year in the field of foreign policy. A key feature of the program is the balloting procedure. Ballots are bound into the Great Decisions books, thus affording participants the opportunity of not only learning about foreign policy issues, but also the chance to register their opinions with policy makers in Washington regarding these issues.

Great Decisions is designed to be conducted as a group study and discussion program with participants meeting weekly for eight weeks or once for each issue presented in the book. These meetings are usually held in public libraries, churches, community centers or other convenient places. The discussion groups provide a good atmosphere for the exchange of ideas and concerns. In addition, Great Decisions is flexible enough to be used by any person who wishes to study foreign policy issues independently or it can serve as an excellent resource for those taking courses dealing with international relations.

The Great Decisions book is an excellent publication, regardless of how it is utilized, and can be purchased from the Independent Study Department for a total cost of four dollars.

Guide to Independent Study Through Correspondence Instruction

The *Guide to Independent Study* provides a listing of correspondence and independent study courses offered by sixty-four institutions of higher education for college credit, certificates of achievement, or personal enrichment. These courses are available to English-speaking persons throughout the world.

$2.00 prepaid ($.50 additional for billing to institutions).

A Directory of U.S. College and University Degrees for Part-Time Students

Two years in preparation, this directory lists 2,848 degrees at 1,277 institutions in all fifty states in which the degree can be completed through part-time study. Of the total, 2,137 are associate degrees, 341 bachelor's, 296 master's, 6 doctor's, 55 juris doctor's (law), and 13 unclassified. All the known "special" and "external" degrees are listed, including those that are available to students any place in the United States or the world. This volume is an invaluable resource for those adults who wish to complete a degree program that has been interrupted earlier or wish to begin a degree program after having assumed adult responsibilities without leaving their current employment or place of residence.
